

SAU TECH PLACEMENT

SAU Tech's placement plan includes an evaluation of high school performance measurements, remedial course completions and the examinations. SAU Tech tests students upon initial admission using ACT or ACCUPLACER exams and uses results to place them into freshman-level courses, or, when test scores fall below the required cut-off, into remedial courses. Students who have taken ASSET or COMPASS within the last five years may utilize those scores for placement. High school concurrent students are not eligible for remediation.
