If a frameworks outcome cannot be found to align with the SAU Tech syllabus course outcome, indicate what concurrent faculty must add to their content to fully align the frameworks with the SAUT course outcome:

Check one:

Textbook used in concurrent course is the same text used in the college course

Textbook used in concurrent course is equivalent to the text used in the college course

I attest that the Arkansas Frameworks listed above align with the SAU Tech course listed; that the course textbook is approved as college-level; and that concurrent credit may be awarded to high school students assessing at 70% proficiency or above on the course outcomes.
