

# General Education (Psychology)

Associate of Arts (A.A.)

## Transfer Options:

- Check with your advisor.

The Associate of Arts (A.A.) degree is designed to allow students the opportunity to obtain the first two years of college credits toward meeting most of the General Education requirements and some of the prerequisite requirements of a four-year baccalaureate degree. Students planning to transfer should carefully follow the transfer program plan for the four-year institution to which they plan to transfer. This degree is also available fully online.

## Program Goals

1. The program will provide students the opportunity to expand knowledge of morality and ethics.
2. The program will provide students the opportunity to develop skills to communicate effectively.
3. The program will provide an opportunity for students to become knowledgeable and proficient in the use of information technology.
4. The program will provide opportunities for students to acquire the necessary skills to think critically.
5. The program will provide the opportunity for students to develop mathematical skills

## Program Outcomes

1. **Applied Ethics** - The applied ethics outcome involves two major components: (1) understanding principles of normative and non-normative ethical theories; and 2) applying these principles in decision-making activities including case studies and contemporary issues. Most character is explored in all its dimensions: virtues and vices, commitments and attitudes, personal relationships, and community involvement, in addition to right and wrong conduct.
2. **Communication** - This outcome will enhance students' written, oral, and interpersonal communication skills.
  - a) *Written Communication* is the development and expression of ideas in writing.
  - b) *Oral Communication* is prepared, purposeful presentation designed to increase knowledge, to foster understanding, or to promote change in listeners' attitudes, values, beliefs, or behaviors.
  - c) *Interpersonal Communication* is the process by which information, feelings, and meaning through verbal and non-verbal messages: it is face-to-face communication.
3. **Information Technology** - Information technology outcome is defined as the level of computer, electronics, and telecommunications literacy necessary to understand the purpose of information technology. Students will discover how information technology assists individuals and organizations to work more efficiently, and how information technology influences society. In addition to learning the technical fundamentals of computer use, students will build a skill and knowledge base in researching information, making appropriate ethical choices about the use of informational technology, and using technology to advance societal goals.
