SAU Tech does not discriminate on the basis of race, color, nationality, gender, religion or age in the delivery of services or hiring of employees. It is our policy to provide equal access to services and facilities for persons with disabilities.
Southern Arkansas University Tech
General Studies

SAU Tech is a two-year college located in Arkansas inside the Highland Industrial Park in East Camden. The college was started in 1968 and is part of the SAU System. Unlike most two-year colleges, SAU Tech has on and off-campus housing for its students.

SAU Tech offers the first two years of a four-year degree that can transfer to any four-year public college in Arkansas. Arkansas law protects the two-year college student by allowing all courses taken under the general studies degree to transfer to all of the state’s public four-year colleges.

So why choose a two-year college over a four-year to start out? SAU Tech offers smaller class size, tutoring, more one-on-one attention and help with preparing to transfer to a four-year college. We are more cost effective than a larger school and can save you a substantial amount of money during the first two years of college. It doesn’t matter what degree you are wanting to pursue whether its medicine, law, business, education, etc., the courses you take in the first two years are the same. The basic core courses like Algebra, English Composition, Sociology, and others are all the same despite the degree you may choose.

Attending college is a big time and money investment and it should be taken seriously. Our financial aid office can help you find funding to help pay for your college as well as assist you in completing the FAFSA (Free Application for Federal Student Aid) and applying for Arkansas Lottery funds, if you qualify.

Students, who attend a two-year college before attending a four-year college, are more successful in their academics. Give us a look and see if we can take care of your first two years of college! Call us for a campus tour!

Other Transfer Programs

SAU Tech has three transfer programs for you; the Associate of Arts degree in General Studies, which we have already discussed, a Business Administration degree, and the basic courses for transferring to a Teacher Education program.

Our advisors are happy to explain to you the options we have for transfer!
