SAU TECH

www.sautech.edu

Our History

SAU Tech is a two-year public college which is part of the Southern Arkansas University System. The college began in 1968 and has an average enrollment of over 1,800 students. SAU Tech employs around 160 staff and faculty and is located inside Highland Industrial Park in East Camden, Arkansas.

About Computer Science & Computer Information Technology

Computer science is the study of computers and computing concepts. It includes both hardware and software, as well as networking and the Internet. The hardware aspect of computer science overlaps with electrical engineering. It covers the basic design of computers and the way they work.

The technology involving the development, maintenance, and use of computer systems, software, and networks for the processing and distribution of data is called Computer Information Technology.

Why Pursue Computer Information Technology as a Career?

There is a high demand and scarcity for skilled Information Technology (IT) professionals. IT professionals are involved with designing, developing, supporting and managing computer software, computer hardware as well as information networks, including the Web. Computer Information Technology holds one of the most demanding positions in the industry concerning job prospective for graduates.

Is it difficult? **The answer is NO!** Even though you come across fancy names and think that you can't do it…. **Yes, you can!** Even though you come from a background where you don't like Mathematics… **you still can!**

What Can You Do?

Job Title	Average Salary
